## 3/2-pot.vent., ročni M3 vrtljivo stikalo, NC, monostab., G 1/4

Kategorija: [3/2-way valve, manually operated, short wing lever](#)

Šifra: **116022RIE**

### Kratek opis

3/2-way valve, manual »M3«, Rotating handle, short, NC, monostable, Control panel integration, G 1/4, Operating pressure 0-10 bar

3/2-way valves

- Manually operated, for panel mounting -

### Tehnične Specifikacije

|                                |                                                                |
|--------------------------------|----------------------------------------------------------------|
| Min. temperaturno območje [°C] | -20                                                            |
| Barva ročice/stikala           | red                                                            |
| Delovanje                      | Monostable                                                     |
| Izpušna povezava               | G 1/4                                                          |
|                                | At P1 = 8 bar, P2 = 6 bar and pressure drop $\Delta p$ = 1 bar |
| Merjenje pretoka               | G 1/4                                                          |
| Povezava                       | Aluminium alloy                                                |
| Telo ventila                   | 3/2 NC                                                         |
| Ffunkcija                      | 3                                                              |
| Simbol                         | 10                                                             |
| Max. obratovalni tlak [bar]    | 70                                                             |
| Max. temperaturno območje [°C] | 550                                                            |
| Pretok [l/min]                 |                                                                |
