## Nerjaveče jeklo filter, 1.4401, 25 µm, Velikost 4, G 1

Kategorija: [Stainless steel filters 1.4401](#)

Šifra: **133553RIE**

### Kratek opis

Stainless steel filter, 1.4401, 25 µm, Size 4, G1, Input pressure max. 30 bar, Medium temperature max. 80 °C  
Stainless steel filters for use in the chemical industry, mining, plant construction and special machinery industries, pneumatics, etc.

### Tehnične Specifikacije

|                              |                                                          |
|------------------------------|----------------------------------------------------------|
| Element filtra               | Stainless steel 1.4404 (AISI 316L)                       |
| Merjenje pretoka             | At $P_1 = 6$ bar and pressure drop $\Delta_p \leq 1$ bar |
| Navoj                        | G 1                                                      |
| Odtok kondenzata             | Locking screw                                            |
| Ohišje                       | Stainless steel 1.4401 (AISI 316)                        |
| Tesnilo                      | NBR                                                      |
| Velikost                     | 4                                                        |
| Rang filtra [µm]             | 25                                                       |
| Max. vhodni tlak [bar]       | 30                                                       |
| Max. sobna temperatura [°C]  | 60                                                       |
| Max. temperatura medija [°C] | 80                                                       |
| A [mm]                       | 120.0                                                    |
| C [mm]                       | 160.0                                                    |
| B [mm]                       | 190.0                                                    |
| Pretok [l/min]               | 9960                                                     |
