Proporcionalni kont. ventil »sentronic LP«24V DCG 1/4DN 4

(slika je simbolična)

Kategorija: [Proportional control valves, »sentronic LP« type](#)Šifra: **135885RIE**

Kratek opis

Proportional control valve »sentronic LP«, 3-way design, with control circuit, 24 V DC, G 1/4, DN 4, Pressure range 0 - 10 bar

Proportional valve for simple and efficient pressure regulation.

With low space requirement, simple operation, modular design and modern software (see Downloads), the valve offers many options for optimising your processes.

Digital communication and control technology.

Low power consumption < 4 W through servo-assisted pilot valves.

Other functions are diagnostics, parameterisation and service.

Servo-assisted proportional valve, conforms to RoHS, REACH.

The target value is preset via the electrical plug connection as a standard signal (0 - 10 V).

Tehnične Specifikacije

Električna nastavitev	0 - 10 V
Merjenje pretoka	At $P_2 = 6$ bar
Navoj	G 1/4
Notranji deli	G 1/4
Ohišje	Aluminium
Poskusno	0 - 10 V
	Air or neutral gases, filter.50 µm, lubricat. or unlubricat.
Srednje	NBR
Tesnilo	Maintenance of press. in case of loss of voltage-non control
Vedenje v varnostnem načinu	1% FS
histereza	1% FS
Ponovljivost	3-way valves
Delovanje	4
DN	10
Max. delovni tlak [bar]	50
Max. sobna temperatura [°C]	52.0
B [mm]	60
Max. temperatura medija [°C]	115.0
H [mm]	470 l/min
Pretok
