### Kratek opis

Spiral hose coupling set, Push button safety coupling I.D.  
7.2, PU, Hose Ø 10x6.5, PN at 23 °C max. 11 bar, Length 3.0  
m

These exceptionally elastic polyurethane hoses boast a  
recoil force similar to that of conventional polyamide spiral  
hose, but with less tendency to loop and significantly better  
resistance to abrasion.

There is consequently less danger of scratching coated or  
sensitive surfaces.

The hose is extremely flexible and non-kinking.

Not suitable for direct attachment to pulsating tools.

We recommend using our vibration dampers, according to  
ISO 6150 § 7.1.
