Kratek opis

Pressure regulator DRV 200, Standard design, non-reversible, incl. pressure gauge, G 1 1/4, Control range 1.5 - 8 bar

Diaphragm pressure regulators with non-self-relieving design and non-pressure-reduced single-seated valve. Very precise adjustment and good response characteristic because there are only a few moving parts and hence minimal friction.

Ideal for compressed air, nitrogen and other neutral, non-flammable gases, but only suitable for liquids with comparatively low flow rates.
